Mimico 20/20 Draft Secondary Plan -Have Your Say!

After years of consultations, studies and meetings, the Mimico 20/20 project will debut at Etobicoke York Community Council on April 9th. Over the past months I have endeavoured to meet with the myriad of residents groups, business owners, property owners and other stakeholders to gather feedback on the proposed Secondary Plan.

Over the next several days, if you have not done so already, I would urge you to take a look at the Mimico 20/20 Draft Secondary Plan and corresponding documentation on the 20/20 website:

<http://www.toronto.ca/planning/mimico2020.htm>.

What do you like and what do you not? What, from your perspective, did City Planning staff get right and what, if anything, seems strange? Are there any details you do not understand and would like clarified before settling on a position? What would you change if you could?

It is possible that the plan, as it stands, will not be the perfect outcome for all involved. The unique nature of the challenges and opportunities present in the Mimico area make that very difficult. The challenge remains in balancing the competing interests in a way that spurs revitalization and best takes advantage of the great potential Mimico has to offer.

The evening of April 9 at 7 p.m. at the Etobicoke Civic Centre will provide the last opportunity to make a deputation before the secondary plan is voted on by City Council. If you can attend the meeting and would still like to submit your comments on record please email them to etcc@toronto.ca.

Sincerely,

Mark Grimes

Toronto Condominium Consultation

The City of Toronto is consulting with Toronto's condominium occupants.

The purpose of this consultation is to engage with condo residents, condo boards, businesses located in condo buildings, property managers, City staff and others to identify possible changes to City policies as they relate to condo living in Toronto. Some examples of existing issues that the City has been made aware of to date include: Access to parks and dog parks, recreational and community amenities, parking and visitor parking and childcare options in the neighborhood.

The health of Toronto's condo communities is critical to the future health of our city as a whole. With the number of new condos quickly changing the face of Toronto, there's a lively and high profile discussion underway regarding what impact these condos will have/are having on the people living in the condos as well as on the broader city.

The City has retained SWERHUN Inc. as an independent facilitator to conduct the consultations.

Get Involved

[Take the Condo Living Survey – Round 1](#)

Thank you for taking the time to fill out this survey! This survey is active from March 29th to April 12th.

Please share it widely with anyone you feel would be interested.

This survey is based on the feedback gathered from the first round of public meetings on Condominium Living in Toronto held in February and March 2013.

Your feedback on this survey will help us by:

1. Confirming the issues related to condo living that were raised frequently during the consultations;
2. Expanding this list of issues; and
3. Sharing your ideas for solutions to the issues

There is a space below each set of issues. Please use this comment space to share your ideas on how to resolve the issues.
