**Jaan will post a detailed bio re Ken on the
MCHS2015reunion**

Ever ask yourself “what is a smidgen? “

Well here is a smidgen of his bio. . . .

But first why spotlight Ken? A Reunion is not where the successful get to laud it over the pawns in the chess game of life. It is not a matter of financial success or not. Bottom line is: are you still smiling at this stage of the road we all started together?

We have no idea, nor seek information on his finances. But the hook was here is someone who almost everyone will have to say, “Hey, that’s a really neat way to go through life.”

Kenn will be telling us about some of this at the Oct 17th event. He may even tell us about whose boat that is.

Born in Montreal on April 08, 1947, Kenn and his family moved to Dollard des Ormeaux in April 1961. They were the '17th' family to live there. Here he explored the mucky bottom of a pond, by fabricating a diver's helmet from an inverted fish-bowl, attaching bricks to his sneakers for ballast, and having his pals, pump air down to him via a bicycle pump and a series of connected hoses. Thus began his 'underwater career'!

What began as a hobby & avocation soon evolved into a passion for undersea research, exploration, and film-documentation. And that is what we mean by “hey, that’s neat.”

Another how good is your memory?

Liz Nuttal, class 72 asks, in the 69-70 somewhere, the whole school banded together to change one of the rule in dress code. Do you remember which part of the code was being challenged?
